

NATIONAL HELICOPTER SERVICES LIMITED

CAREER OPPORTUNITIES

National Helicopter Services Limited, a leading provider of offshore helicopter transport and related services to the energy and state sectors, is seeking to recruit suitably qualified professionals to fill the following position:

DIRECTOR OF OPERATIONS

The Director of Operations (DOO) reporting to the General Manager is the lead position under the Aircraft Operator Certificate (AOC) and is responsible for managing the full range of NHSL's operations function.

Major Duties and Responsibilities:

- Works closely with the Director of Maintenance (DOM) to ensure maintenance and flight operations are coordinated fully, safely and efficiently in executing the daily flight programme and any forecasted maintenance or regulatory inspections.
- Determines and maintains the core manpower levels, skill sets and competencies required among the flight and ground crew to enhance department efficiency and maintain operation service quality.
- Identifies, evaluates and resolves issues regarding department inefficiency/ineffectiveness, recommends and implements action steps to support continuous improvement within the function.
- Ensures the overall management of the department, its policies, procedures, systems and practices are relevant to support and promote a culture of safety, high performance and accountability.
- Collaborate with Senior Managers in articulating the strategic business goals of the organisation and driving its implementation within the operation function.
- Build and maintain strong relationships with key stakeholders, understand their needs and implement strategies to improve satisfaction and ensure repeat business.
- Oversees the revenue targets and cost budgets of the department and participates fully in various financial, costing and budgeting exercises.
- Performs line check duties when required and flies the line at least 25% of the monthly pilot roster.

Required Qualifications and Competencies:

- A valid Trinidad and Tobago ATPL (H) with IR and AW-139 type rating or acceptable equivalent.
- At least five (5) years flight operations managerial or command experience.
- A minimum of 6000 flight hours, with at least 1500 offshore and PIC experience on a medium twin.
- Excellent knowledge of Civil Aviation Regulations and industry best practices.
- Strong Leadership, Interpersonal, Communication and Business Savvy Skills.
- Post Graduate qualification in Aviation/Management will be an asset.
- Proven ability to motivate staff and manage a diverse team on time sensitive projects.
- Possess a high degree of integrity, tact, diplomacy and corporate spirit.

Detailed applications together with documentary evidence of Academic Qualifications, Licences and experience should be made via the [EmployTT](#) platform and
